3 committees set to address plaints against social media platforms

MORE POWER TO USERS. The notification is part of tighter IT rules for setting up govt-appointed GACs

Our Bureau
New Delhi

The Centre on Saturday notified three grievances appellate committees that will address user complaints against social media and Internet-based platforms. According to the Gazette notification, three Grievance Appellate Committees (GAC) have been constituted with three members each. Each of the GACs will have a chairperson, two whole-time members from different government entities and retired senior executives from the industry for a term of three years from the date of assumption of office, it said.

The notification is part of the tighter IT rules, notified in October 2022 for setting up the GACs.

FOR FREE INTERNET

"The GAC is a critical piece of overall policy and legal framework to ensure that Internet in India is open, safe and trusted and accountable. The need for

GAC was created due to large numbers of grievances left unaddressed or unsatisfactorily addressed by Internet Intermediaries. GAC is expected to create a culture of responsiveness amongst all Internet platforms and intermediaries towards their consumers," the government notification said. Users will have the option to appeal against the decision of the grievance officer of the social media intermediaries and other online intermediaries before this new appellate body. The Committee will endeavour to address the user's appeal within a period of 30 days.

It will be a virtual digital platform that will operate only online and digitally. The entire process, from the filing of appeal to the decision shall happen digitally. The first panel will be chaired by Rajesh Kumar, Chief Executive Officer, Indian Cyber Crime Coordination Centre under the Ministry of Home Affairs, with retired IPS officer Ashutosh Shukla and Punjab National Bank's former chief general manager

AIDING NETIZENS. Users will have the option to appeal against the decision of the grievance officers of the social media intermediaries before the GAC. AFP

Sunil Soni as whole-time members.

The second panel will be headed by Vikram Sahay, Joint Secretary in charge of the Policy and Administration Division in the Ministry of Information and Broadcasting, with Indian Navy's retired Commodore Sunil Kumar Gupta and Kavindra Sharma, CEO of IDBI Intech Krishnagiri Raghamarao as whole-time members.

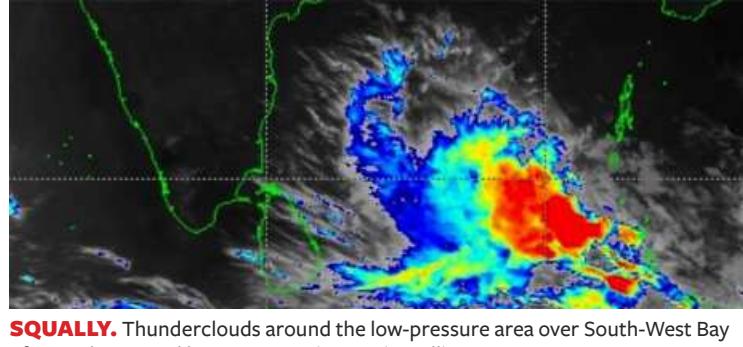

L&T Infotech, as whole-time members. The third panel under Kavita Bhateria, a senior scientist in the Ministry of Electronics and Information Technology, has former Indian Railways traffic service officer Sanjay Goel and former Managing Director and CEO of IDBI Intech Krishnagiri Raghamarao as whole-time members.

Rare depression threatens to break Bay's Feb calm

Vinson Kurian
Thiruvananthapuram

January and February are generally a 'silent period' as far as the Bay of Bengal and the Arabian Sea go. But not this year, if the noise building to the south-east of Sri Lanka is any indication. A low-pressure area in the region is gradually earning its spurs to grow in strength as a rare depression, per the latest update from the India Meteorological Department (IMD).

The parent low-pressure lay over South-East Bay of Bengal and the adjoining East Equatorial Indian Ocean on Saturday morning. It is likely to move gradually West-North-West and become 'well-marked' by Sunday in the first round of intensification. It will move in the same direction later and intensify further into a depression by Monday to reach near Sri Lanka coast the next day. The IMD has warned fishermen of squally weather over the South-East Bay with

SQUALLY. Thunderclouds around the low-pressure area over South-West Bay of Bengal captured by Japanese Himawari satellite

wind speeds reaching 40-45 kmph gusting to 55 kmph and over South-West and adjoining South-West Bay on Sunday and Monday. Winds are expected to gather speed further to 45-55 kmph gusting to 65 kmph over South-West and adjoining South-East Bay on Tuesday while being at 40-45 kmph gusting to 55 kmph over the South-west Bay and along and off the Sri Lanka coast.

On Wednesday (February 1), squally winds with speeds reaching 40-45 kmph gusting to 55 kmph are likely over the South-West Bay and along the North Sri Lanka and South Tamil Nadu coast. The IMD has predicted thunderstorms accompanied by lightning at isolated places over Tamil Nadu, Puducherry, Karaikal, Kerala and Mahe on Tuesday. On Wednesday, too, a similar weather

pattern will play out over South Tamil Nadu, South Kerala and Lakshadweep.

Meanwhile, another large western disturbance is on its way in and has reached East Iran and will take its time to cross in from the international border across Rajasthan and North-West India. Like the predecessor's intense disturbance, it will feature high moisture feed as it likely spawns a secondary cyclonic circulation and dips over the Arabian Sea on Sunday and Monday.

RAIN, SNOW FOR NORTH-WEST
It will trigger light to moderate fairly widespread rainfall or snowfall over the hills of North-West India and light to moderate scattered to fairly widespread rainfall over Punjab, Haryana, Chandigarh and West Uttar Pradesh on these two days. It will be light to moderate isolated to scattered rainfall over East Uttar Pradesh; over Rajasthan on Sunday; and isolated light over Delhi on Sunday.

Ola EV offers two service plans

Our Bureau
Bengaluru

EV maker Ola Electric has announced a customer service programme 'Ola Care Subscription' to enhance customer service.

The service has two subscription plans: One, Ola Care which offers free labour on service, a theft assistance helpline and roadside and puncture assistance. Two, Ola Care+, in addition to these benefits, includes annual comprehensive diagnostic, free home service and pick-up/drop, free consumables and 24/7 doctor and ambulance service. The annual subscription price is ₹1,999 and ₹2,999, respectively.

Anshul Khandelwal, Chief Marketing Officer, Ola, said, "...we are completely reimagining the customer service experience and aim to bring in the best-in-class after-sales service. The subscription plan offers customers 360-degree access to our service network which is equipped to cater to customers at the convenience of their doorstep or at their nearest Ola Experience Centres."

NTPC net up near-5% in Q3; to give ₹4.25/share interim

Our Bureau
New Delhi

State-run NTPC on Saturday reported a 5 per cent growth in its consolidated net profit at ₹4,854 crore for the October-December quarter of FY23.

The country's largest power generator's consolidated total income was also higher on an annual basis at ₹44,989 crore in Q2 FY23 from ₹33,784 crore in Q3 FY22.

On a consolidated basis, the total income of the group for the nine months of FY23 stood at ₹133,231.43 crore up 36.97 per cent from the corresponding previous period's ₹97,269.89 crore.

PAT UP
The nine-month Profit After Tax (PAT) was ₹12,249.80 crore up 4.16 per cent from ₹11,760.78 crore in the same period

The group's cumulative power generation rose by 11.6 % year-on-year to 295.4 BU during April-Dec 2022

last fiscal year. The NTPC board approved an interim dividend for FY23 at 42.50 per cent of the paid-up share capital, that is, ₹4.25 per equity share.

The group's cumulative power generation rose by 11.6 per cent year-on-year to 295.4 billion units (BU) during April-December 2022.

On a standalone basis, the company generated 254.6 BU during the same period, an increase of 16.1 per cent over the previous year.

The coal plants registered a plant load factor

(PLF) of 73.7 per cent for the first nine months of FY23 compared to 68.5 per cent during the same period in FY22.

NTPC posted a significant growth in captive coal production at 14.6 million tonnes (MT) in the nine months of FY23 up 51 per cent over the corresponding previous period.

RE CAPACITY
The NTPC group's total installed capacity is 70,824 megawatts (MW).

Recently, the company crossed 3 gigawatts of renewable energy capacity with the commissioning of first part capacity of 100 MW out of 300 MW Nokhra Solar PV Project at Bikaner, Rajasthan, on December 20, 2022.

It has 36 operational renewable energy projects across 12 States with a cumulative capacity of 3,094 MW.

Seshasayee Paper's Q3 profit surpasses ₹100 cr for second consecutive quarter

Balachandar G
Chennai

Seshasayee Paper and Boards' record profit run continued in the December 2022 quarter as well, with the company's net crossing ₹100 crore for the three-month period in a row.

REVENUE UP
For the quarter ended December 31, 2022, the net profit zoomed to ₹109 crore up from ₹6 crore in the year-ago quarter. Higher production and sales on the back of robust pent-up demand and improved net sales realisations, both from domestic and export markets, aided the strong performance.

project, which will increase the capacity to 1,65,000 tonnes a year from 1,32,000 tonnes, was started in July 2019 but was delayed by the Covid lockdown.

Seshasayee Paper had spent ₹220 crore as on March 31, 2022, for the MDP-III and has planned to spend the balance of ₹68 crore in 12-15 months.
